

TECHNICAL SPECIFICATION SHEET END:
EASY OPEN END ø84 BPA-NI

ED 1 OF 30.10.2018
REV 2 OF 01.07.2021
Form: CO09EO202104L

Description:

Easy open end made of steel alloy, coated with a layer of tin and vanish. The inside of the lid is white lacquered or transparent varnished.

Material type :

material type : TFS – E2.8/2.8
Compound : Water base, food contact approved
Hardness: TH 550
External coating post - repair : Multicomponent

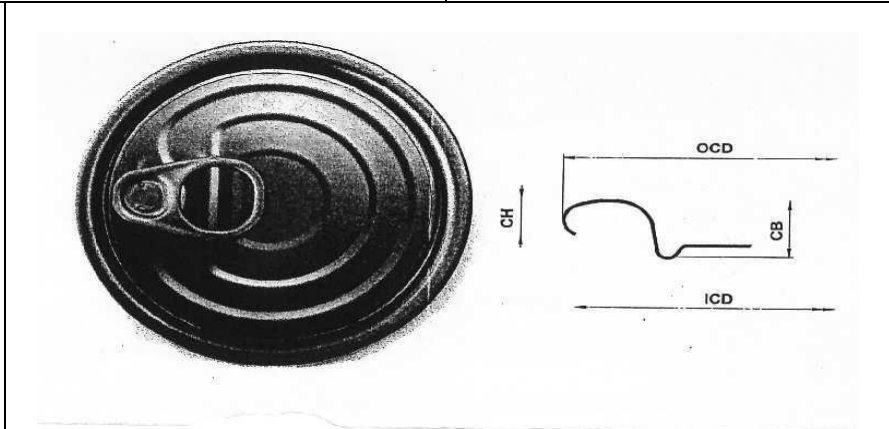

Tab : Kstab Golden External

Measures :

Curl height CH : 2.15 ± 0.20 mm
Countersink depth CD : 4.05 ± 0.20 mm
Outside curl diameter OCD : 92.50 ± 0.25 mm
:Inside curl diameter ICD : 90.23 min mm

Mechanical performance :

Burst pressure >. 2.00 bar

Issued by : Nicola Bozzo

Verified by : Teresa Piccirillo

Approved by: Walter Russo

Individual supplies may have different nominal characteristics. The characteristics of the materials are always uniform for all batches of individual supplies. Other nominal values can be considered with prior agreement. Higher coverage than the one contracted is always allowed.
